RECREATING *Classic Styles*

Inspiration for our unique Artworks tiles can be traced back to ancient Greece and Rome, for it was art and architecture from this era that was the basis for many of the Renaissance, Regency and Victorian imagery which forms much of this exclusive collection.

A WEALTH OF COLOUR AND DECORATIVE DETAIL

At Original Style we have devoted years of research to perfect ceramic decorating techniques which allow the consistent reproduction of vivid colours combined with precise detail. The results can be seen on the following pages, including classic works of art on ceramic tiles which faithfully reproduce the colours and textures of the original canvases.

A REFLECTION OF TRUE QUALITY

The exceptional reflectivity of Original Style field tiles is achieved by creating our own glazes. These have a translucence, intensity and depth which we believe to be unmatched by any other tile manufacturer, anywhere in the world.

MIX AND MATCH

All standard tiles are 152mm wide (6") with an edge depth of 7mm ($\frac{1}{4}$ "). This brochure shows just a few ways in which decorated, moulded and plain tiles can be combined to create stunning effects but, with such a wide selection, we are confident that you will be able to think of many more!

CLASSICAL *Style*

The Fleur de Lis has been used for thousands of years: it was the flower of Hera, Moon Goddess of the Ancient Greeks, a symbol of purity associated with the Virgin Mary, and the heraldic emblem of the Tudor dynasty and a multitude of French rulers going back to Charlemagne. It is still in use today for coats of arms for cities and monarchs.

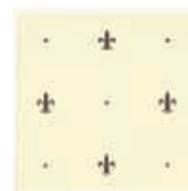

We have carefully researched its shape and proportions to bring you our version of this beautiful motif on a tile. The Fleur de Lis now graces Original Style tiles in gold and platinum on backgrounds of Brilliant White, Black and Colonial White, giving an almost three dimensional effect. Use Fleur de Lis in your home and enjoy its delicate grandeur.

MASTERPIECE *Collection*

What could be more up-lifting to gaze at as you relax in your bath than a work of art by one of the great painters of the past?

These historic works of art are accurately replicated on our glazed ceramic tiles. As these tiles are larger and thicker than our normal tiles, we have developed two versions for different types of display. Each Masterpiece tile can be installed within a field of tiles, framed with matching frame sets. The other option is to hang them as ceramic plaques, and the tiles have wall fixing brackets for this purpose. It means you can install or hang your chosen Masterpiece in rooms such as bathrooms and conservatories where steam, strong sunlight or UV light could damage conventional prints or poster reproductions of these paintings.

MASTERPIECE *Collection*

GUSTAV KLIMT (1862-1918)

The son of a Bohemian gold engraver, Klimt showed early artistic promise and at the age of 14 entered the Viennese School of Arts and Crafts. The period known as the Belle Époque (the last years of the 19th century), was also a blossoming of the Art Nouveau movement, to which Klimt was a prominent contributor. He was a founding member of the anti-establishment Vienna Secession movement (similar to the Art Nouveau movement in Paris), which embraced not only art but architecture and design. Against this backdrop Klimt's work pushed boundaries to test public tolerance of images of female nudity and eroticism, a major theme of his art.

Klimt was inspired by art from the ancient Egyptian and Minoan civilizations and influenced by the stunning Byzantine mosaics in Venice and Ravenna. Since he painted *The Kiss* in 1907 it has become his most famous work – and arguably the world's most popular painting. The sumptuous and dazzling image contains a great deal of symbolism and imagery. The original work has a three dimensional effect, and to create an accurate facsimile, we have crafted the image onto a tile using pure gold, platinum and silver (just like the original), in addition to ceramic colours. We have also designed a coordinating border and corner.

THE KISS MASTERPIECE TILE

6356 - plain back to install in a field of tiles*
6356WB - with brackets to hang as a picture*

Picture tile only:
600 x 600 x 10mm (23 5/8" x 23 5/8" x 3/8")

With frame:
670 x 670 x 10mm (26 1/2" x 26 1/2" x 3/8")

*Please turn to pages 68-74 for more details

BORDERS AND CORNERS

Made to match 'the Kiss', the border and corner also contain pure gold and platinum. You can place the border within a dado or use as a frame. Different effects can be created when the border is inverted and the corners rotated.

6355 Klimt Border

SIR LAURENCE ALMA-TADEMA (1836-1912)

Although he was Dutch by birth, Alma-Tadema spent most of his working life in England. He was particularly noted for his paintings of elegant female figures in classical Greek and Roman settings, and was described by Punch as a "marvellous artist" for his skill in depicting marble. The vivid blue of the Mediterranean is a recurring theme in his work and forms the backdrop for three of the four paintings we have selected.

Dimensions for all 4 Alma-Tadema tiles

Picture tile only:

560 x 380 x 10mm (22" x 14³/₄" x 1¹/₃")

MASTERPIECE Collection

RAFFAELLO SANZIO, KNOWN AS RAPHAEL (1483-1520)

Born in Urbino, the son of an artist, Raphael was called to Rome in 1508 to carry out a number of commissions for Pope Julius II. Thereafter his work was in great demand from wealthy Roman merchants and noblemen. Influenced by both Leonardo da Vinci and Michelangelo, he nevertheless established his own distinctive style and became one of the great Classical artists of the High Renaissance.

Galatea (1511-12) was a fresco commissioned by the Siennese banker, Agostino Chigi, to decorate the wall of a loggia at his riverside villa. It shows the nymph, Galatea, dramatically surrounded by “amorini, mermen, hippocamps and nereids” and survives today in what is now called the Villa Farnesina, after a later owner.

SANDRO BOTTICELLI (1444-1510)

Widely acknowledged as one of the greatest Italian Renaissance painters, Botticelli lived and worked in Florence where he attracted the patronage of the powerful Medici family. He had a distinctive, personal style and drew his inspiration from a multitude of sources, classical and Biblical as well as contemporary. The Birth of Venus (c.1481), perhaps his best known work, was commissioned for one of the many Medici villas around Florence and is now in the Uffizi Gallery.

MASTERPIECE *Collection*

CLAUDE MONET (1840-1926)

Monet was the master of the Impressionist movement in late 19th century France. His passion was depicting the effects of light, particularly on water, which often led him to paint the same scene several times over in a variety of daylight conditions. He lived for a few years at Argenteuil on the River Seine and later bought a house near the village of Giverny. Its large garden is where many of his greatest masterpieces were painted. The Water-Lily Pond (1899) is one of a series featuring Monet's own water garden and Japanese footbridge at Giverny in which his use of colour and light is at its most exquisite. Argenteuil (c.1875) shows a variety of colourful boats moored on the River Seine. It was probably painted from the artist's specially built studio boat.

VICTORIAN *Collection*

Many of the tiles produced by the English manufacturers of the 19th Century were specifically designed for fireplaces. Here the standard requirement was for vertical five-tile sets which were positioned either side of the grate. We have reproduced a selection of the best of these for use as decorative wall tiles. Their proportions make them particularly appropriate for shower cubicles, and they can also be successfully incorporated into a wide variety of settings. There are matching floral borders for all our Victorian tile sets, which can also be used as attractive decorative features in their own right.

The background glaze colour for Plant & Urn is either Colonial White or Brilliant White. See pages 56-64 for details of plain and moulded tiles.

Background glaze colours vary from one set to another; please take careful note of the colour before ordering matching field and moulded tiles.

WILLIAM DE MORGAN

William De Morgan (1839-1917) was one of the foremost English tile designers of the late Victorian and Edwardian period. A lifelong friend of William Morris, the founder of the Arts and Crafts movement, he was precisely the kind of designer-craftsman that the movement admired. Although trained as an artist, De Morgan also inherited a love of science from his father and became an expert on the chemistry of ceramic glazes. Through painstaking research he achieved distinctive, lustrous colours to complement his lively designs, many of which were inspired by Persian art, including the Peacock border featured here.

The background glaze colour is Brilliant White.

See pages 56-64 for details of plain and moulded tiles.

ARTS & Crafts

W. B. SIMPSON

During its short history from 1873 to 1910 the firm of W. B. Simpson produced some of the most original and beautifully decorated tiles of the period. We have reproduced the Fish and Shell designs, which make excellent decorative friezes to set against a background of plain and moulded tiles.

ART *Nouveau*

ALPHONSE MUCHA

Alphonse Mucha (1860-1939) rose from obscurity in Moravia to become one of the most celebrated Parisian artists and illustrators of his time. He was a leading exponent of the Art Nouveau style, popularising such motifs as flowers on slender, twining stems and romantic female figures with abundant flowing hair. We have reproduced six of his finest designs and pictures as decorated ceramic tiles and tile panels. These have been expanded into a fully co-ordinated tile collection with the addition of mirror images, single floral tiles and matching borders featuring motifs from the original pictures.

RELIEF Tiles

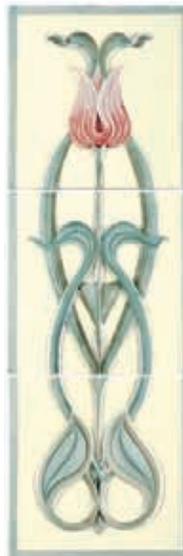

RAISED-LINE TILES

Raised-line decoration was a technique developed in the late 19th Century and was used extensively during the Arts and Crafts and Art Nouveau periods. The outline of the pattern was embossed on to the tile body and different coloured glazes were applied to the 'walled' sections created. The Original Style Rose and Bud tile set is a faithful reproduction of this style using specially developed modern production techniques.

The background glaze colour is Colonial White. See pages 56-64 for details of plain and moulded tiles.

RELIEF MOULDED TILES

With delightful Art Nouveau styling, this highly detailed, three-tile set is produced by a raised pattern technique called Relief Moulding. Each tile is slip cast in elegantly sculptured moulds and then dry fired before being individually hand painted by one of our skilled artists. After glazing and a further firing in a high temperature kiln, the result is a unique piece that will provide pleasure for years to come.

The background glaze colour is Colonial White. See pages 56-64 for details of plain and moulded tiles.

RELIEF Tiles

TUBE LINED SINGLE TILES

This highly skilled method of decoration evolved towards the latter part of the 19th Century and was used to embellish ornaments, such as bowls and vases, as well as ceramic tiles. It requires the outline for each design to be piped by hand onto the tile. Different coloured translucent glazes are then applied – again by hand – to separate areas of the design to create exquisite works of art.

The background glaze colour is Colonial White. See pages 56-64 for details of plain and moulded tiles.

By the end of the 19th Century the Glasgow School of Art was one of the leading academies in Europe and its reputation for new ideas in decorative arts and design reached a zenith. At the very heart of this success was the talented artist and architect Charles Rennie Mackintosh. Original Style's Glasgow Rose three-tile sets are a tribute to the enduring interest in Mackintosh and evoke the very essence of his distinctive style.

The background glaze colour is Colonial White.

ART Deco

Possibly the 20th Century's most outstanding design movement, and certainly one of its most memorable, the enduringly popular Art Deco style evokes all the bold, daring modernism of the Twenties. Clean lines and precise symmetry combine in visually arresting shapes and forms which both challenge and inspire. And with real platinum and gold used on every 6" tile, you can be sure they make the ultimate décor statement.

The background glaze colour is Brilliant White. See pages 56-64 for details of plain and moulded tiles.

Under studio lighting the platinum and gold used on Art Deco tiles may appear as black. Before making your choice it is always advisable to ask your Original Style supplier to show you samples.

MOSAIC Floor Tiles

Up to now the natural partner and most obvious choice for Artworks wall tiles has been Original Style Victorian flooring, as both can trace their roots back to the elegant Victorian era. However, these beautiful mosaic floor tiles are an extremely attractive alternative. They can also be a practical solution for bathrooms and especially for small spaces, and, like Victorian floor tiles, are perfect when used with underfloor heating.

Victorian Green tiles - special warning

Victorian Green tiles have a copper-based glaze which is prone to discolouration by very mild acids often found in the home. To avoid such discolouration they should be cleaned only with pure water and should always be wiped dry immediately after cleaning. These tiles should never be used in wet areas such as showers, bath surrounds or basin splashbacks.

Important Note

Due to their shape Albert and Victoria mouldings are not recommended for use in areas subject to wall movement. It is also imperative that care is taken when grouting these mouldings to ensure moisture cannot get into the back of them as this may cause the moulding to crack.

PROFILES

Our wide choice of special mouldings and borders enables you to achieve an attractive and professional finish. The detailed relief (as illustrated below) adds an eye-catching feature to any tiled area.

Important
The reverse sides of mouldings are prone to variance. This does not affect fixing.
Please note, we cannot guarantee that glaze will cover the side edges of the profiles shown above.
Due to their shape Albert and Victoria mouldings are not recommended for use in areas subject to wall movement. It is also imperative that care is taken when grouting these mouldings to ensure moisture cannot get into the back of them as this may cause the moulding to crack.

ROUNDED EDGE TILES

(REL or Bullnose and RES)

To ensure a perfect finish to tiled areas we have created these half tiles with one rounded edge (either long edge or short edge), ideal for use on window sills, counter tops and any edge requiring a smart finish.
9005 REL Tile (Long Edge) 152mm x 75mm (6" x 3")
9008 RESTile (Short Edge)* 152mm x 75mm (6" x 3")
When ordering please prefix the REL code number (9005) with the relevant colour code letter e.g. E9005 Victorian Green REL tile.
*RES (9008) only available in Brilliant White or Colonial White.

Carreaux aux bords arrondis

Pour garantir une finition parfaite, nous avons conçu ces demi-carreaux avec un bord arrondi (bord long ou bord court), idéal pour les seuils de fenêtres, les plans de travail et tous les rebords où une finition élégante est nécessaire.

Carreau 9005 REL (Bord Long) 152mm x 75mm
Carreau 9008 RES (Bord Long) 152mm x 75mm
Lorsque vous passez commande, veuillez faire précéder le code REL (9005) de la lettre du code couleur désiré, par ex. Carreau E9005 Victorian Green REL.
*RES (9008) disponible uniquement en Brilliant White ou Colonial White.

Abgerundete Kantenfliesen

Zur perfekten Einfassung von gefliesten Bereichen haben wir diese Halbfliesen mit einer abgerundeten Kante (längere oder kürzere Kante) entwickelt. Sie eignen sich ideal für die Verwendung an Fensterbänken, Arbeitsflächen und allen Kanten, die eine feine Einfassung benötigen.
9005 REL Fliese (Längere Kante) 152mm x 75mm
9008 RES Fliese (Kürzere Kante)* 152mm x 75mm
Bitte geben Sie bei Ihrer Bestellung vor der Codenummer REL (9005) den entsprechenden Farbcode-Buchstaben an, wie z. B. E9005 Victorian Green REL-Fliese.
*RES (9008) ist nur in den Farben Brilliant White oder Colonial White erhältlich.

Afgeronde randtegels

Voor de perfecte afwerking van tegeloppervlakken hebben we halve tegels met een afgeronde zijde (lange of korte zijde) ontwikkeld. Ideaal voor vensterbanken, aanrechten en alle randen die netjes moeten worden afgewerkt.
9005 REL Tile (lange zijde afgerond) 152mm x 75mm
9008 RES Tile (korte zijde afgerond)* 152mm x 75mm
Zet bij uw bestelling de betreffende kleurcodeletter voor het REL-codenummer (9005), bijvoorbeeld E9005 Victorian Green REL.
*RES (9008) alleen verkrijgbaar in Brilliant White en Colonial White.

Rounded Edge
Available in all colours

Field Tile

Field tile thickness
7mm (1/4")

EXTERNAL CORNERS VICTORIA, ALBERT AND SKIRTING

Available in left (L) and right (R) for a professional finish (in Brilliant White and Colonial White only). NB: Due to their shape, Albert and Victoria mouldings are not recommended for use in areas subject to wall movement. It is also imperative that care is taken when grouting these mouldings to ensure moisture cannot get into the back of them as this may cause the moulding to crack.

Angles externes

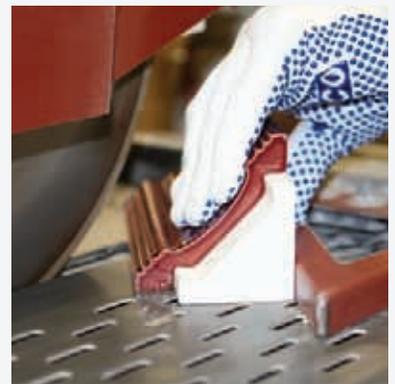

Disponible en gauche (L) et droit (R) pour une finition professionnelle (en Brilliant White ou Colonial White seulement). A cause de leur forme, les moulures Albert et Victoria ne sont pas recommandées pour une utilisation dans des emplacements où les parois sont susceptibles de bouger. Il est aussi impératif, lors du jointement de ces moulures, de s'assurer que l'humidité ne pourra s'infiltrer par derrière, sinon les moulures risquent de se lézarder au fil du temps.

Außenecken

Erhältlich in links (L) und rechts (R) für einen professionellen Abschluss (nur in Brilliant White und Colonial White). Aufgrund ihrer Form ist es nicht empfehlenswert, die Einfassungen Albert und Victoria in Bereichen mit Wandbewegung anzubringen. Außerdem ist beim Ausfügen dieser Einfassungen Vorsicht geboten, um sicherzustellen, dass keine Feuchtigkeit zurück in die Einfassung gelangt, da sie dadurch platzen kann.

Buitenhoecken

Verkrijgbaar in links (L) en rechts (R) voor een professionele afwerking (alleen verkrijgbaar in Brilliant White en Colonial White). Vanwege hun vorm zijn de profielen Albert en Victoria niet aanbevolen voor gebruik op muropervlakken met speling. Deze profielen moeten ook beslist zorgvuldig worden gevoegd om ervoor te zorgen dat er geen water achter kan komen, waardoor de profielen zouden kunnen barsten.

45° ANGLE BLOCK

TL0113 45° Angle Block 90mm / 3½"

This handy 45° Angle Block is invaluable for cutting the internal and external 45° angle corners of the Plain Cornice moulding (code 9929), thus ensuring a professional finish. It needs to be used with an electric tile cutting machine with a minimum cutting depth of 75mm, or a carbide tile saw and mitre block (the Cornice moulding sits on top of the angle block and is placed inside the mitre block, then cut with the carbide tile saw). Please note that, as the angle block is made from Plaster of Paris it is water soluble and likely to only last for one or two installations. Always seek professional advice when using cutting equipment. For more details refer to the Fixing Guide www.originalstyle.com/fixing.html

TL0113 Bloc d'angle 45° 90mm

Ce bloc d'angle pratique s'avère indispensable pour découper les coins d'angles internes et externes à 45° des moulures Plain Cornice (code 9929), garantissant ainsi une finition professionnelle. Il doit être utilisé avec un coupe-carreaux électrique d'une profondeur minimum de coupe de 75 mm, ou une scie à carreaux au carbure et une boîte à onglet (placez les moulures Cornice sur le bloc d'angle et à l'intérieur de la boîte à onglet, puis découpez avec la scie à carreaux au carbure). Veuillez noter que, comme le bloc d'angle est en plâtre de Paris, il est soluble dans l'eau et ne vous servira que pour une ou deux installations. Consultez toujours l'avis d'un professionnel lorsque vous utilisez du matériel de découpage. Pour de plus amples informations, veuillez vous reporter au Guide d'Installation sur www.originalstyle.com/fixing.html

TL0113 45° Winkelblock 90mm

Dieser handliche Winkelblock ist von unschätzbarem Wert, um beim Schneiden von 45°-Innen- und Außenecken für die Einfassung Plain Cornice (Code 9929) einen professionellen Abschluss zu gewährleisten. Zur Verwendung ist eine elektrische Fliesenscheidemaschine mit einer Mindestschneidetiefe von 77 mm oder eine Karbid-Fliesensäge mit Gehrungsblok nötig (der Cornice-Randleiste sitzt auf dem Winkelblock und wird in dem Gehrungsblok platziert und anschließend mit der Karbid-Fliesensäge geschnitten). Bitte beachten Sie, dass der Winkelblock, da er aus Gipsmörtel besteht, wasserlöslich und wahrscheinlich nur für eine oder zwei Installationen verwendbar ist. Fragen Sie stets einen Fachmann, wenn Sie Schneidinstrumente verwenden. Weitere Informationen finden Sie in der Installationsanweisung unter www.originalstyle.com/fixing.html

TL0113 45° Angle Block 90mm

Dit handige hoekblok is van onschatbare waarde bij het zagen van binnen- en buitenhoeken van 45° voor Plain Cornice-randen (code 9929) en zorgt voor een professionele afwerking. Het blok moet worden gebruikt in combinatie met een elektrische tegelsnijmachine met een minimale zaagdiepte van 75 mm of een hardmetalen tegelzaag en een verstekbak. (De lijst wordt geplaatst op het hoekblok dat in de verstekbak is gezet en dan in verstek gezaagd met de hardmetalen tegelzaag.) Het hoekblok is gemaakt van kalkmortel. Het is oplosbaar in water en gaat waarschijnlijk slechts een of twee klussen mee. Vraag altijd om professioneel advies bij het gebruik van zaagapparatuur. Raadpleeg de Fixing Guide (www.originalstyle.com/fixing.html) voor meer informatie.

Here are just a few ideas for arranging and combining the different colours, patterns and mouldings.

IMPORTANT Information

SHADE VARIATION

Shade variation is an inherent feature of the manufacturing process of Artworks wall tiles. We recommend that tiles are loosely laid out and blended prior to fixing to achieve the most pleasing distribution of shades. Differences between batches can be more marked, so for this reason we recommend that you buy all the tiles at one time. No liability for shading issues can be accepted after installation.

NOMINAL DIMENSIONS

Throughout this brochure we quote nominal dimensions which are subject to slight variation within internationally accepted standards. Please note that as the mouldings are slip-cast not dust-pressed, the dimensions may vary. Where applicable, Original Style tiles are manufactured to conform to BS EN14411.

SCRATCHING

As with all glazed surfaces, some wearing or scratching may occur over time. Care should therefore be taken to select the proper tile for a given use. The wall tiles shown in this brochure are not recommended for surfaces subject to heavy wear.

CRAZING

Highly glazed ceramic tiles may craze with time, and no guarantee can be given against this occurrence.

SUITABILITY

Wall Tiles

Artworks wall tiles are not suitable for work surfaces, floors or external use. They are suitable for interior walls only, including walls in wet rooms and showers. This excludes Victorian Green tiles, which have a copper-based glaze prone to discolouration by very mild acids often found in the home. To avoid such discolouration they should be cleaned only with pure water and should always be wiped dry immediately after cleaning. These tiles should never be used in wet areas such as showers, bath surrounds or basin splashbacks.

Due to their shape Albert and Victoria mouldings are not recommended for use in areas subject to wall movement. It is also imperative that care is taken when grouting these mouldings to ensure moisture cannot get into the back of them as this may cause the moulding to crack.

The reverse sides of mouldings are prone to variance. This does not affect fixing. We cannot guarantee that glaze will cover the side edges of the profiles on page 64.

Floor Tiles

This brochure also includes floor mosaics. These are suitable for use on external and internal floors, including showers and wet rooms. Please refer to the Fixing Guide at www.originalstyle.com/fixing.html for more information.

Victorian Floor tiles (shown throughout this brochure) are suitable for internal and external floors. For full details of dimensions, suitability and fixing instructions, please refer to the Victorian Floor Tiles Fixing Guide at www.originalstyle.com/vft-fixing.html

HOW MANY TILES WILL YOU NEED?

Nominal Tile Size*	per square metre	Per square foot
Field tile 152 x 152 x 7mm (6" x 6" x 1/4")	43	4
Half tile 152 x 75 x 7mm (6" x 3" x 1/4")	86	8
Floor mosaics		
292 x 292 x 6mm (11 1/2" x 11 1/2" x 1/4")	11.7	1.09
292 x 310mm x 6mm (11 1/2" x 12 1/4" x 1/4")	11	1
297 x 257 x 6mm (11 3/4" x 10 1/8" x 1/4")	13.1	1.2
297 x 297 x 6mm (11 3/4" x 11 3/4" x 1/4")	11.3	1.04
Nominal Tile Moulding Length*	per linear metre	Per linear foot
Skirting 152mm (6")	6.6	2

Based on a 2mm/1/16" grout gap. Please allow 5 per cent extra for wastage.

External Corners

Available in left (L) and right (R) for a professional finish (in Brilliant White and Colonial White only).

INSTALLATION, ADHESIVES AND GROUTS

It is important to use the correct adhesive to match the substrate. We recommend D1 or D2 wall tile adhesives for Artworks tiles and mouldings which are placed on plasterboard or plaster walls. For all other substrate a flexible cement-based adhesive may be required. Please consult your tile stockist or adhesive manufacturer for their advice. Always use high quality adhesives and grouts following manufacturers' recommendations for their use and suitability for the type of tile, the application and the substrate being tiled. In all installations, seal joints with an impervious grout. If joints are not completely watertight, moisture can be absorbed into the tile body causing stains to show through the glaze. Use an average grout space of at least 2mm to allow for variations in tile dimensions. When installing in power showers, Epoxy grout must be used.

Do not install Original Style tiles directly into wet cement or sand and cement.

It is imperative to follow grout and adhesive manufacturers' instructions regarding their suitability with our products. If in doubt please consult the grout/adhesive stockist from whom you purchased the products. Original Style makes no representations as to the fitness for purpose of third party adhesives and grouts.

Sealing Joints

In all installations, especially shower cubicles, joints should be sealed with an impervious grout such as PCI Aquafug or an epoxy type. Joints between tiles and shower trays should be sealed with silicone sealant. If joints are not completely watertight moisture can be absorbed into the tile body causing stains to show through the translucent glaze. Silicone expansion joints should be incorporated under Victorian dados.

IMPORTANT *Information*

FIXING MOULDED TILES TO OUTSIDE CORNERS

To fix cornice and other moulded tiles to an outside corner one end of the tile must be carefully mitred at 45° with carborundum or a diamond edged saw. This has the effect of shortening the surface of the tile in contact with the wall.

VICTORIA MOULDINGS

Victoria mouldings should not be used on any wooden surfaces due to thermal expansion of the wood which may crack the moulding.

GOLD AND PLATINUM TILES AND MOULDINGS

Care must be taken when fixing and grouting tiles and mouldings including those with a precious metal finish.

NB Please refer to the fixing instructions at www.originalstyle.com/fixing.html before the installation of any tiles/mouldings with a precious metal finish.

Please note, we do not recommend the use of acid based cleaning products as they may cause some tiles to react and change in character. We only recommend a pH neutral cleaner. Do not use abrasive cleaners or materials on any tiles or mouldings including those with a precious metal finish.

MASTERPIECE TILES

Masterpiece tiles are available in two options:
– with brackets fixed to the back ('WB' is included in product code)
– with a plain back

With Brackets

The brackets makes the Masterpiece tiles suitable for hanging from a wall like a picture, which means that they can be placed in rooms such as bathrooms, kitchens, conservatories and over fireplaces, unlike conventional pictures, which could be damaged by steam, humidity, heat and ultra violet light.

Plain Back

The plain backed option makes the Masterpieces suitable for installation within a field of tiles. There are matching frames in Brilliant White, Colonial White and Black for the Alma-Tadema, Raphael, Botticelli and Monet Masterpieces, and matching Vienna Frames and Corners in Gold, Antique Gold, Platinum and Black for the Klimt Masterpiece. The frame sets including the Vienna frames and corners have been specially designed to match Masterpiece tiles and bridge the differences in thickness between these and field tiles ranging from 5-12mm ($\frac{7}{8}$ " x $\frac{15}{16}$ ").

Fixing Masterpiece Tiles and Frames

We strongly recommended that Original Style Masterpiece tiles and frames are installed by an experienced professional tiler. Masterpiece tiles should be handled with extreme care at all times. Masterpiece tiles can each weigh up to 7kg (15.4lb) and could cause personal injury if dropped. Masterpiece tiles have a water absorption capacity of less than 3 per cent. It is important to follow the adhesive and grout manufacturers' instructions at all times.

NB Please refer to the fixing instructions at www.originalstyle.com/fixing.html before installation of any Masterpiece tiles.

Cleaning

Original Style Masterpiece tiles should be rinsed with clean water and wiped off with a soft, dry cloth in exactly the same way as normal glazed wall tiles.

For full fixing instructions, please refer to the Masterpiece Tiles and Frames section in the Original Style Fixing Guide at www.originalstyle.com/fixing.html

In the USA please follow the recommendations of a reputable adhesive manufacturer and always comply with American National Standards Institute (ANSI) specifications as set out in the Handbook for Ceramic Tile Installation published by the Tile Council of America. Useful links: www.ctoa.org www.tileusa.com

PHOTOGRAPHY

Owing to variations in studio lighting and printing inks, the tile colours shown in this brochure may differ slightly from those of the actual tiles. It is always advisable to ask your Original Style supplier to show you a sample.

LIMITS OF LIABILITY

Original Style accepts no liability for the faulty installation of its products. In the case of any claim relating to the tiles themselves, Original Style's liability, to the extent permitted by law, is limited to either the replacement of the product or a refund of the cost of the product, and does not extend to cover any consequential loss. Claims must be reported within seven working days from receipt of the tiles. Tiles must be inspected prior to installation and claims cannot be considered after the tiles have been installed.

Please be advised that installation constitutes acceptance of the quality, colour, size, texture and shade of the tiles. Original Style warrants that its tiles conform to their description and are fit for their purpose. Original Style makes no other express or implied warranty as to fitness or suitability of the products for particular installations. We extend no guarantees, express or implied, as to wear resistance or maintenance procedures.

Please note the use of certain acid based cleaning products may cause some of the tiles to react and change in character.

INFORMATIONS

Essentielles

VARIATION DE TEINTE

La variation de teinte est une caractéristique inhérente au processus de fabrication du carrelage mural Artworks. Nous vous recommandons d'étaler les carreaux et de les agencer avant de les fixer, afin de répartir les différentes teintes de la manière la plus harmonieuse. Les différences sont plus marquées d'un lot à l'autre, ainsi nous vous recommandons vivement d'acheter tous les carreaux en une seule fois. Nous n'accepterons aucune responsabilité pour les problèmes liés à la teinte une fois les carreaux installés.

DIMENSIONS NOMINALES

Tout au long de cette brochure, nous indiquons les dimensions nominales qui peuvent être sujettes à de légères variations, mais toujours dans la limite des normes internationales en vigueur. Veuillez noter que, comme les mouleurs sont coulés en barbotine et non pressés à sec, les dimensions pourront présenter des variations.

Les carreaux Original Style sont fabriqués en conformité avec la norme BS EN14411, dans tous les cas où cette norme s'applique.

RAYURES

Comme pour toutes les surfaces vitrifiées, les carreaux peuvent s'user ou se rayer avec le temps. Soyez donc vigilants de choisir les carreaux qui correspondent le mieux à l'usage que vous en ferez. Les carrelages muraux présentés dans cette brochure ne conviennent pas à des surfaces sujettes à une usure intense.

CRAQUELURES

Les carreaux en céramique fortement vitrifiés peuvent se craqueler au fil du temps. Nous ne pouvons offrir aucune garantie contre cette éventualité.

USAGE

Carrelages muraux

Les carrelages muraux Artworks ne conviennent pas pour les surfaces de travail, les sols ou l'usage extérieur. Ils conviennent uniquement à une pose murale en intérieur, y compris dans les salles de bains et les douches, sauf pour les carreaux Victorian Green, dont l'émail à base de cuivre est susceptible de se décolorer sous l'effet des acides couramment utilisés dans les maisons. Pour éviter une telle décoloration, ces carreaux doivent être lavés à l'eau pure uniquement et doivent toujours être séchés immédiatement après lavage. Ces carreaux ne doivent jamais être posés dans des endroits humides, dans une douche, autour d'une baignoire ou comme dossier d'évier.

A cause de leur forme, les mouleurs Albert et Victoria ne sont pas recommandées pour une utilisation dans des emplacements où les parois sont susceptibles de bouger. Il est aussi impératif, lors du jointement de ces mouleurs, de s'assurer que l'humidité ne pourra s'infiltrer par derrière, sinon les mouleurs risquent de se lézarder au fil du temps.

Le dos des mouleurs est susceptible de varier. Cela n'affecte en rien la pose. Notez que nous ne pouvons garantir que les bords latéraux des profils illustrés en page 64 seront émaillés.

Carreaux de sol

Cette brochure comprend aussi des mosaïques pour sol. Celles-ci peuvent être utilisées sur les sols intérieurs et extérieurs, y compris les douches et les salles de bain. Veuillez vous référer au Guide d'installation sur www.originalstyle.com/fixing.html pour de plus amples informations.

Les carreaux de sol Victorian (illustrés tout au long de cette brochure) sont aussi utilisables sur sols intérieurs et extérieurs. Pour des informations complètes concernant les dimensions, l'usage et les instructions d'installation, veuillez vous reporter au Guide d'installation des carreaux de sol Victorian sur www.originalstyle.com/vft-fixing.html

INSTALLATION, COLLES ET JOINTS

Il est important d'utiliser une colle appropriée qui correspondra au sujet. Nous recommandons des colles D1 ou D2 pour carreaux muraux pour les carreaux et les mouleurs Artworks qui seront appliqués sur des murs en plâtre ou Placoplatre. Pour tout autre sujet, une colle flexible à base de ciment sera probablement nécessaire. Veuillez demander conseil auprès de votre revendeur de carreaux ou fabricant de colles. Veuillez à toujours utiliser une colle et un ciment-joint de haute qualité et à suivre les recommandations du fabricant concernant leur utilisation, le type de carreaux auquel ils sont adaptés, leur application et le sujet sur lequel les carreaux seront installés. Pour toute installation, assurez-vous de poser

des joints étanches. Si les joints ne sont pas complètement étanches, les carreaux risqueront d'absorber l'humidité, ce qui fera apparaître des taches à travers l'émail. Veuillez à ce que l'écart de joint soit de 2 mm en moyenne, au cas où la dimension des carreaux présente de légères variations. Si les carreaux sont installés dans une douche multi-jets, vous devez utiliser un joint Epoxy.

N'installez pas les carreaux Original Style directement sur du ciment frais ou un mélange de sable et de ciment frais.

Il est impératif de suivre les instructions des fabricants de colles et de ciments-joints afin d'en vérifier la compatibilité avec nos produits. En cas de doute, consultez le revendeur qui vous aura fourni la colle ou le ciment-joint. Original Style n'assumera aucune responsabilité en ce qui concerne la compatibilité ou l'usage de colles et de ciments-joints tiers.

Joint d'étanchéité

Dans toutes les installations, et en particulier dans les cabines de douche, il est recommandé d'étanchéiser les joints avec un enduit étanche tel que PCI Aquafug ou un enduit de type Epoxy. Pour les joints entre les carreaux et le bac à douche, il est conseillé d'utiliser un agent d'étanchéité à base de silicone. Si les joints ne sont pas complètement étanches, les carreaux risqueront d'absorber l'humidité, ce qui fera apparaître des taches à travers l'émail translucide. Enfin, des joints de dilatation en silicone doivent être incorporés sous les plinthes Victorian.

DE COMBIEN DE CARREAUX AUREZ-VOUS BESOIN ?

Taille nominale du carreau*	par mètre carré
Carreau entier 152 x 152 x 7mm	43
Demi-carreau 152 x 75 x 7mm	86
Mosaïques pour sol	
292 x 292 x 6mm	11,7
292 x 310 x 6mm	11
297 x 257 x 6mm	13,1
297 x 297 x 6mm	11,3
Longueur nominale du moulage des carreaux*	par mètre linéaire
Plinthe 152mm	6,6

En prenant en compte un écart de joint de 2mm. Prévoyez 5% supplémentaires pour compte des pertes.

POSER DES CARREAUX MOULÉS SUR DES ANGLES SAILLANTS

Pour poser les corniches et autres carreaux moulés sur un angle saillant, l'une des extrémités du carreau devra être délicatement biseautée à 45° avec du carborundum ou une scie diamantée. Cela aura pour effet de réduire la surface du carreau en contact avec la paroi.

MOULURES VICTORIA

Il est fortement déconseillé de poser les mouleurs Victoria sur des surfaces en bois car l'expansion thermique du bois risque de craqueler les mouleurs.

CARREAUX ET MOULURES EN OR ET PLATINE

Veuillez prendre le plus grand soin lors de la pose et du jointement des carreaux et mouleurs, surtout si leur finition est en métal précieux.

NB Veuillez vous reporter aux instructions d'installation sur www.originalstyle.com/fixing.html avant d'installer tout carreau ou toute moulure avec une finition en métal précieux.

Veuillez noter que l'utilisation de certains produits nettoyants à base d'acide peut provoquer des réactions sur certains carreaux et en modifier les caractéristiques. Nous recommandons uniquement l'usage d'un produit nettoyant au pH neutre. N'utilisez jamais de produits nettoyants ou de matériaux abrasifs sur les carreaux ou mouleurs, y compris sur ceux dont la finition est en métal précieux.

WICHTIGE Informationen

CARREAUX CHEF D'ŒUVRE

Les carreaux Chef-d'œuvre sont disponibles en deux versions :
– avec appliques fixées au dos (le code de produit comprend les lettres 'WB')
– avec dos nu

Avec appliques

Les appliques permettent de pendre les carreaux Chef-d'œuvre à un mur comme un tableau, ce qui signifie que vous pouvez les poser dans des pièces telles qu'une salle de bain, une cuisine et un jardin d'hiver ou encore au-dessus d'une cheminée, au contraire des tableaux conventionnels que la vapeur, l'humidité, la chaleur et les rayons ultraviolets finiraient par endommager.

Dos nu

La version des carreaux Chef-d'œuvre avec dos nu permet de les installer parmi un ensemble de carreaux. Des cadres assortis sont disponibles en Brilliant White, Colonial White et Black pour les Chefs-d'œuvre d'Alma-Tadema, Raphael, Botticelli et Monet, de même que des cadres et angles viennois assortis en Gold, Antique Gold, Platinum et Black pour le Chef-d'œuvre de Klimt. Ces ensembles de cadres, y compris les cadres et angles viennois, ont été spécialement conçus pour être assortis aux carreaux Chef-d'œuvre et atténuer les différences d'épaisseur entre ces carreaux et les carreaux unis, qui varient de 5 à 12 mm.

Installer les carreaux et cadres Chef-d'œuvre

Nous vous recommandons vivement de faire installer les carreaux et cadres Chef-d'œuvre d'Original Style par un carreleur professionnel et expérimenté. Les carreaux Chef-d'œuvre doivent toujours être manipulés avec le plus grand soin. Chaque carreau peut peser jusqu'à 7 kg. Si une personne fait tomber l'un de ces carreaux, elle risquera de se blesser. La capacité d'absorption d'eau des carreaux Chef-d'œuvre est inférieure à 3%. Il est impératif de suivre scrupuleusement les instructions de votre fabricant de colle et de mastic.

NB Veuillez vous référer au Guide d'installation sur www.originalstyle.com/fixing.html avant de procéder à l'installation des carreaux Chef-d'œuvre.

Nettoyage

Les carreaux Original Style Masterpiece doivent être rincés à l'eau propre et séchés avec un chiffon doux et sec, de la même manière que les carreaux émaillés ordinaires.

Pour des instructions complètes concernant l'installation, veuillez vous reporter à la section Carreaux et Supports Masterpiece du Guide d'installation d'Original Style sur www.originalstyle.com/fixing.html

Si vous vous trouvez aux Etats-Unis, veuillez suivre les recommandations d'un fabricant de colles réputé et conformez-vous toujours aux spécifications de l'American National Standards Institute (ANSI), décrites dans le Manuel pour l'installation de carreaux en céramique (Handbook for Ceramic Tile Installation) publié par le Tile Council of America. Liens utiles : www.ctoa.org, www.tileusa.com.

PHOTOGRAPHIES

L'éclairage en studio et les encres utilisées pour l'impression peuvent affecter la couleur des carreaux présentés dans ce catalogue. Avant de passer commande, il est toujours préférable de vous procurer des échantillons auprès d'un revendeur Original Style.

LIMITATION DE RESPONSABILITÉ

Original Style dégage toute responsabilité en cas d'installation incorrecte de ses produits. En cas de réclamation relative aux carreaux eux-mêmes, la responsabilité d'Original Style sera confinée, dans la limite autorisée par la loi, au remplacement du produit ou au remboursement du prix du produit, et ne couvre pas les dommages indirects. Toute réclamation doit être effectuée dans les sept jours suivant la réception des carreaux. Les carreaux doivent être inspectés avant installation. Aucune réclamation ne sera prise en compte une fois les carreaux installés.

Notez que l'installation du carrelage constitue l'acceptation de la qualité, de la couleur, de la taille, de la texture et de la teinte des carreaux. Original Style garantit que ses carreaux sont conformes au descriptif fourni et qu'ils sont adaptés à l'usage pour lequel ils sont prévus. Original Style ne formule aucune garantie expresse ou implicite supplémentaire vis-à-vis de l'adéquation ou de la compatibilité de ses produits dans des installations spécifiques. Nous ne formulons aucune garantie, expresse ou implicite, vis-à-vis de la résistance à l'usure ou des procédures d'entretien.

Veuillez noter que l'utilisation de certains produits nettoyants à base d'acide peut provoquer des réactions sur certains carreaux et en modifier les caractéristiques.

SCHATTENVARIATION

Schattenvariation ist eine Eigenschaft im Herstellungsprozess der Artworks-Wandfliesen. Wir empfehlen, die Fliesen vor der Anbringung lose auszulegen und so zu mischen, dass der angenehmste Schattenwurf entsteht. Unterschiede zwischen einzelnen Chargen können sogar noch deutlicher ausfallen. Aus diesem Grund empfehlen wir dringend, dass Sie alle Fliesen auf einmal kaufen. Wir können keine Haftung für eventuelle Farbprobleme nach der Installation übernehmen.

SOLLMASSE

In dieser Broschüre geben wir Sollmaße an, die leichten Abweichungen innerhalb international anerkannter Normen unterliegen. Da unsere Formen per Schlickerguss und nicht durch Trockenpressen hergestellt werden, können die Maße leicht variieren.

Sofern anwendbar werden Fliesen von Original Style gemäß dem Standard BS EN14411 hergestellt.

KRATZER

Wie bei allen glasierten Oberflächen können mit der Zeit Anzeichen von Abnutzung und leichte Kratzer auftreten. Daher ist es wichtig, von vornherein die richtige Fliese für den jeweiligen Einsatz zu wählen. Die in dieser Broschüre abgebildeten Wandfliesen eignen sich nicht für stark belastete Oberflächen.

RISSE

Stark glasierte Keramikfliesen können mit der Zeit Risse bekommen und wir können in dieser Hinsicht keine Gewähr übernehmen.

EIGNUNG

Wandfliesen

Artworks-Wandfliesen eignen sich nicht für Arbeitsflächen, Böden oder den Außenbereich. Sie sind nur für Innenwände geeignet, einschließlich Wänden in Feuchträumen und Duschen. Davon ausgenommen sind die Fliesen der Serie Victorian Green, deren kupferbasierte Glasur durch die oft im Haushalt zu findenden milden Säuren ausgefärbt werden kann. Um eine derartige Ausfärbung zu vermeiden, sollten sie nur mit klarem Wasser gesäubert und nach dem Säubern sofort trockengewischt werden. Diese Fliesen sollten niemals in feuchten Bereichen wie Duschen, Badumgebungen oder als Beckenspritzschutz verwendet werden.

Aufgrund ihrer Form ist es nicht empfehlenswert, die Einfassungen Albert und Victoria in Bereichen mit Wandbewegung anzubringen. Außerdem ist beim Ausfügen dieser Einfassungen Vorsicht geboten, um sicherzustellen, dass keine Feuchtigkeit zurück in die Einfassung gelangt, da sie dadurch platzen kann.

Die Rückseiten der Einfassungen können voneinander abweichen. Dies hat keine Auswirkung auf die Anbringung. Wir können nicht garantieren, dass die Glasur die Seitenkanten des auf Seite 64 gezeigten Profils abdeckt.

Bodenfliesen

In dieser Broschüre finden Sie auch Bodenmosaiken. Sie sind für die Verwendung auf Außen- und Innenböden geeignet, einschließlich Duschen und Feuchträumen. Weitere Informationen finden Sie in der Installationsanweisung unter www.originalstyle.com/fixing.html

Bodenfliesen Victorian (in der gesamten Broschüre zu finden) eignen sich für Böden im Innen- und Außenbereich. Ausführliche Details zu Größen, Eignung und Installationsanweisungen finden Sie in der Installationsanweisung für Victorian-Bodenfliesen unter www.originalstyle.com/vft-fixing.html

INSTALLATION, KLEBER UND FUGEN

Es ist wichtig, den für den Bodenuntergrund passenden Fliesenkleber zu verwenden. Für Fliesen und Einfassungen von Artworks, die auf Gipskartonplatten oder Wandputz geklebt werden, empfehlen wir Wandfliesenkleber D1 oder D2. Für alle anderen Böden ist gegebenenfalls ein flexibler, zementbasierter Kleber erforderlich. Bitte fragen Sie Ihren Fliesenhändler oder Kleberhersteller um Rat. Verwenden Sie immer hochwertige Kleber und Fugenmasse. Folgen Sie den Anweisungen des Herstellers bezüglich Verwendung und Eignung für bestimmte Fliesenarten, Einsatzbereiche und Substrate. In jedem Fall sind die Fugen mit einer wasserdichten Fugenmasse abzudichten. Wenn die Fugen nicht vollständig

WICHTIGE Informationen

wasserdicht sind, kann Feuchtigkeit in den Fliesenträger eindringen und Verfärbungen der Glasur verursachen. Die Fugenbreite muss mindestens 2mm betragen, um Unterschiede in den Fliesenabmessungen ausgleichen zu können. Bei der Installation in druckverstärkten Duschen ist Epoxid zu verwenden. Bringen Sie Fliesen von Original Style nicht direkt auf feuchtem Zement oder Sand und Zement an.

Es ist unerlässlich, die Anweisungen der Fugenmasse- und Fliesenkleberhersteller zur Eignung für unsere Produkte zu befolgen. Bitte wenden Sie sich im Zweifelsfall an den Fugenmasse-/ Kleberhändler, bei dem Sie die Produkte gekauft haben. Original Style äußert sich nicht zur Gebrauchstauglichkeit von Klebern und Fugenmasse von Drittanbietern.

Dichtungsfugen

Bei allen Installationen, besonders in Duschkabinen, sollten Fugen mit einer wasserdichten Fugenmasse wie PCI Aquafug oder einer Epoxid-Fugenmasse verfugt werden. Fugen zwischen Fliesen und Duschwannen sollten mit Silikonichtmasse verfugt werden. Sind die Fugen nicht vollkommen wasserdicht, kann Feuchtigkeit in den Fliesenboden eindringen und auf den lichtdurchlässigen Fliesen Flecken verursachen. Unter den Victorian-Nuten sollten Silikonichtfugen angebracht werden.

WIE VIELE FLIESEN BRAUCHEN SIE?

Nennmaße der Fliese*	pro Quadratmeter
Fliese (Field-Tile) 152 x 152 x 7mm	43
Halbfliese 152 x 75 x 7mm	86
Bodenmosaik	
292 x 292 x 6mm	11,7
292 x 310 x 6mm	11
297 x 257 x 6mm	13,1
297 x 297 x 6mm	11,3
Genormte Länge der Bordüre*	pro lfd. Meter
Randfliese 152mm	6,6

Basierend auf einer Fugenbreite von 2mm. Bitte rechnen Sie 5 Prozent zusätzlich als Verbrauch ein.

Außenecken

Erhältlich in links (L) und rechts (R) für einen professionellen Abschluss (nur in Brilliant White und Colonial White).

GEFORMTE FLIESEN AN AUßENECKEN ANBRINGEN

Um Randleisten und andere geformte Fliesen an einer Außenecke anzubringen, muss ein Ende der Fliese sorgfältig mit einem Karborund oder einer Diamantsäge auf 45° gekehrt werden. Dadurch verkürzt sich die Oberfläche der Fliese, die Kontakt mit der Wand hat.

VICTORIA-EINFASSUNGEN

Victoria-Einfassungen sollten nicht auf hölzernen Oberflächen verwendet werden, da die Einfassung aufgrund der Wärmeausdehnung des Holzes platzen kann.

EINFASSUNGEN GOLD UND PLATINUM

Vorsicht beim Verlegen und Verfugen der Fliesen und Einfassungen, einschließlich derjenigen mit einem Edelmetalleffekt.

Hinweis: Bitte beachten Sie die Installationsanweisungen unter www.originalstyle.com/fixing.html, bevor Sie mit dem Verlegen von Fliesen bzw. Einfassungen mit Edelmetalleffekt beginnen.

Beachten Sie bitte, dass die Fliesen bei Verwendung von säurebasierten Reinigungsmitteln reagieren und ihr Aussehen verändern können. Wir empfehlen ausschließlich einen pH-neutralen Reiniger. Verwenden Sie keine scheuernden Mittel oder Materialien auf Fliesen oder Einfassungen, einschließlich derjenigen mit Edelmetalleffekt.

MASTERPIECE FLIESEN

Masterpiece Fliesen sind in zwei Varianten erhältlich:

- Mit Haltern auf der Rückseite (Produktcode enthält Kennzeichnung „WB“)
- Mit einfacher Rückseite

Mit Haltern

Mit Hilfe der Halter können die Masterpiece Fliesen wie ein Bild an der Wand aufgehängt werden, so dass sie in Räumen wie Badezimmer, Küchen, Wintergärten und über dem Kamin zur Geltung kommen – im Gegensatz zu normalen Bildern, die durch Dampf, Feuchtigkeit, Hitze und ultraviolettes Licht beschädigt werden könnten.

Einfache Rückseite

Masterpiece Fliesen mit einfacher Rückseite können in eine Fliesenfläche integriert werden. Es gibt passende Rahmen in den Farben Brilliant White, Colonial White und Black für die Masterpieces Alma-Tadema, Raphael, Botticelli und Monet, und passende Vienna Rahmen und Eckfliesen in Gold, Antique Gold, Platinum und Black für das Klimt Masterpiece. Die Rahmen-Sets einschließlich der Vienna Rahmen und Eckfliesen wurden speziell für die Masterpiece Fliesen entwickelt und überbrücken die Unterschiede in der Dicke zwischen diesen und den Grundfliesen von 5 bis 12 mm.

Installation von Masterpiece Fliesen und Rahmen

Wir empfehlen dringend, Fliesen und Rahmen der Serie Original Style Masterpiece nur von einem erfahrenen Fliesenleger legen zu lassen. Masterpiece-Fliesen sollten jederzeit mit äußerster Sorgfalt behandelt werden. Einzelne Fliesen wiegen bis zu 7 kg. Sie können sich verletzen, wenn Sie eine Fliese fallen lassen. Masterpiece-Fliesen haben eine maximale Wasseraufnahmekapazität von weniger als 3 Prozent. Es ist wichtig, jederzeit die Anweisungen des Fliesenkleberherstellers zu befolgen.

Hinweis: Bitte beachten Sie die Installationsanweisungen unter www.originalstyle.com/fixing.html, bevor Sie mit dem Verlegen von Masterpiece Fliesen beginnen.

Reinigung

Original Style Masterpiece-Fliesen sollten wie normale glasierte Wandfliesen mit sauberem Wasser abgespült und mit einem weichen, trockenen Tuch abgewischt werden.

Ausführliche Installationsanweisungen finden Sie im Abschnitt Fliesen und Rahmen der Serie Masterpiece in der Installationsanweisung von Original Style unter www.originalstyle.com/fixing.html

Wenn Sie in den USA wohnen, dann folgen Sie den Anweisungen eines renommierten Kleberherstellers und beachten Sie dabei immer die Spezifikationen des amerikanischen staatlichen Normenverbands (ANSI), wie sie im Handbuch für die Installation von Keramikfliesen vorgeschrieben sind, das vom Tile Council of America herausgegeben wurde. Nützliche Webseiten sind: www.ctoa.org, www.tileusa.com.

FOTOGRAFIE

Aufgrund von Abweichungen bei der Studiobleuchtung und Druckfarben, können die Fliesenfarben, die in dieser Broschüre dargestellt sind, leicht von den Farben der tatsächlichen Fliesen abweichen. Bevor Sie Ihre Auswahl treffen, sollten Sie zuvor immer einen Einzelhändler für Original Style nach Mustern fragen.

HAFTUNGSBESCHRÄNKUNGEN

Original Style übernimmt für die fehlerhafte Installation seiner Fliesen keine Haftung. Sollte es Reklamationen bezüglich der Fliesen selbst geben, dann beschränkt sich die gesetzlich eingeräumte Haftung von Original Style lediglich auf den Artikeltausch oder Kostenrückerstattung. Reklamationen müssen innerhalb von sieben Arbeitstagen nach Erhalt der Fliesen erfolgen. Fliesen müssen vor der Installation kontrolliert werden. Eine Reklamation nach der Installation ist nicht möglich.

Bitte beachten Sie, dass Sie mit der Installation die Qualität, Farbgebung, Textur oder Schattierung sowie das Format der Fliesen akzeptieren und keine Beanstandungen anzeigen. Original Style gewährleistet die Beschreibungs- und zweckgemäße Fabrikationsausführung der Fliesen. Original Style gibt keine weiteren ausdrücklichen oder impliziten Garantien hinsichtlich Eignung der Artikel für besondere Installationsarten. Wir geben weder ausdrücklich noch implizit eine Garantieverlängerung auf Abnutzungsverhalten oder Wartungsarbeiten.

Beachten Sie bitte, dass die Fliesen bei Verwendung von säurebasierten Reinigungsmitteln reagieren und ihr Aussehen verändern können.

BELANGRIJKE Informatie

KLEURNUANCES

Liteenlopende kleurnuances zijn een inherente eigenschap van het productieproces van Artworks-muurtegels. We raden aan dat de tegels losjes worden neergelegd en gemengd voordat ze worden aangebracht. Zo krijgt u de mooiste verdeling van de kleurnuances. De verschillen tussen partijen kunnen duidelijker zichtbaar zijn. We raden u daarom aan alle tegels tegelijk te bestellen. We zijn niet aansprakelijk voor problemen met de kleurnuanciering na het aanbrengen.

NOMINALE AFMETINGEN

In deze hele brochure vermelden we nominale afmetingen, die geringe variaties kunnen vertonen binnen internationaal geaccepteerde normen. Omdat de profielen zijn gegoten en niet geperst, kunnen de afmetingen verschillen.

Original Style-tegels worden, indien van toepassing, geproduceerd volgens de BS EN 14411-norm.

KRASSEN

Zoals bij alle geglaazuurde oppervlakken, kunnen er na verloop van tijd slijtage en krassen ontstaan. Kies daarom zorgvuldig de juiste tegel voor een bepaalde toepassing. De muurtegels in deze brochure zijn niet aanbevolen voor oppervlakken die onderhevig zijn aan zware slijtage.

CRAQUELÉ

Sterk geglaazuurde keramische tegels kunnen na verloop van tijd craquelé gaan vertonen. We kunnen dienaangaande geen enkele garantie bieden.

TOEPASSELIJKHEID

Muurtegels

Artworks-muurtegels zijn niet geschikt voor werkoppervlakken, vloeren en buitengebruik. Ze zijn uitsluitend geschikt voor binnenmuren, waaronder muren in natte ruimten en douches. Dit geldt niet voor Victorian Green-tegels. Deze tegels hebben een glazuur op koperbasis, waardoor ze kunnen verkleuren door huishoudmiddelen die lichte zuren bevatten. Om verkleuring te voorkomen, moeten ze uitsluitend worden gereinigd met zuiver water en direct na reiniging worden afgedroogd. Deze tegels mogen nooit worden gebruikt in natte ruimten, zoals douches, rondom het bad en achter het aanrecht.

Vanwege hun vorm zijn de profielen Albert en Victoria niet aanbevolen voor gebruik op muuroppervlakken met speling. Deze profielen moeten ook beslist zorgvuldig worden gevoegd om ervoor te zorgen dat er geen water achter kan komen, waardoor de profielen zouden kunnen barsten.

De achterzijde van profielen kan vormvariatie vertonen. Dit is niet van invloed op het zetten. We kunnen niet garanderen dat de zijanten van de profielen op pagina 64 met glazuur zijn bedekt.

Vloertegels

Deze brochure bevat ook mozaïektegels voor op de vloer. Deze tegels zijn geschikt voor binnen- en buitenvloeren, waaronder die van douches en natte ruimten. Raadpleeg de Fixing Guide (www.originalstyle.com/fixing.html) voor meer informatie.

De Victorian-vloertegels die overal in deze brochure worden getoond zijn geschikt voor binnen- en buitenvloeren. Raadpleeg de Victorian Floor Tiles Fixing Guide (www.originalstyle.com/fixing.html) voor alle informatie over afmetingen, geschiktheid en tegelinstructies. www.originalstyle.com/vft-fixing.html

AANBRENGEN, LIJMEN EN VOEGMIDDELEN

Het is van belang dat u lijm gebruikt die geschikt is voor een bepaalde ondergrond. Voor het aanbrengen van Artworks-tegels en -profielen op muren van gipsplaat of gepleisterde muren raden we muurtelijm van klasse D1 of D2 aan. Voor alle andere ondergronden kan een flexibele lijm op cementbasis vereist zijn. Vraag uw tegelspecialist of de lijmfabrikant om advies. Gebruik altijd lijm en voegmiddel van hoge kwaliteit en volg de richtlijnen van de fabrikant inzake gebruik en geschiktheid voor het type tegel, de toepassing en de ondergrond die wordt betegeld. Gebruik voor alle klussen een waterdicht voegmiddel. Indien de voegen niet volledig waterdicht zijn, kunnen de tegels vocht opzuigen en kunnen er vlekken achter het glazuur

verschijnen. Gebruik een gemiddelde voegbreedte van minimaal 2mm om de verschillen in de afmetingen van de tegels op te vangen. Gebruik voor tegels in een power shower een voegmiddel op epoxybasis.

Breng Original Style-tegels nooit direct aan op nat cement of een natte mortel van zand en cement. Volg beslist de instructies van de fabrikanten van de voegmiddelen en lijmen op inzake hun geschiktheid voor onze producten. Raadpleeg in geval van twijfel de voegmiddelen- of lijmspecialist bij wie u de producten hebt gekocht. Original Style staat niet in voor de geschiktheid en doelmatigheid van lijmen en voegmiddelen van derden.

Voegen

Gebruik voor alle klussen, en met name in douchecabines, een waterdicht voegmiddel, zoals PCI Aquafug of een voegmiddel op epoxybasis. De naden tussen tegels en douchebakken moeten worden afgedicht met siliconenkit. Indien de voegen niet volledig waterdicht zijn, kunnen de tegels vocht opzuigen en kunnen er vlekken achter het doorschijnende glazuur verschijnen. Onder Victorian-plinten moeten expansievoegen van siliconenkit worden aangebracht.

HOVEEL TEGELS HEBT U NODIG?

Nominale tegelafmetingen*	Per vierkante meter
Basistegel 152 x 152 x 7mm	43
Halve tegel 152 x 75 x 7mm	86
Mozaïektegels voor op de vloer	
292 x 292 x 6mm	11,7
292 x 310 x 6mm	11
297 x 257 x 6mm	13,1
297 x 297 x 6mm	11,3
Nominale lengte profieltegels*	per strekkende meter
Plinttegel 152mm	6,6

Gebaseerd op een voegbreedte van 2mm. Houdt u rekening met 5% snijverlies en breuk.

Buitenhoeken

Verkrijgbaar in links (L) en rechts (R) voor een professionele afwerking (alleen verkrijgbaar in Brilliant White en Colonial White).

PROFIELTEGELS OP BUITENHOEKEN AANBRENGEN

Om lijsttegels en andere profieltegels op een buitenhoek aan te brengen, moet een zijde van de tegel zorgvuldig in een hoek van 45° worden gezaagd met een carborundum- of diamantzaag. Hierdoor wordt het tegeloppervlak dat contact maakt met de muur korter.

VICTORIA-PROFIELEN

Victoria-profielen moeten niet worden gebruikt op een houten oppervlak. De profielen kunnen barsten door het uitzetten en krimpen van het hout.

GOUDEN EN PLATINA TEGELS EN LIJSTWERK

Wees voorzichtig met het zetten en voegen van tegels en lijstwerk, waaronder die met een kostbare metalen afwerking.

N.b.: Raadpleeg de installatieaanwijzingen op www.originalstyle.com/fixing.html voorafgaand aan het zetten van tegels/lijstwerk met een kostbare metalen afwerking.

Wij raden aan geen zuurhoudende schoonmaakmiddelen te gebruiken aangezien sommige tegels daar op reageren en het karakter van de tegels veranderen. We raden alleen het gebruik van een pH-neutraal reinigingsmiddel aan. Gebruik geen bijtende schoonmaakmiddelen of -materialen op tegels of lijstwerk, waaronder die met een kostbare metalen afwerking.

BELANGRIJKE *Informatie*

MASTERPIECE TEGELS

Masterpiece tegels zijn verkrijgbaar in twee opties:

- met haakjes aan de achterkant ('WB' maakt deel uit van de productcode)
- met een gladde achterkant

Met haakjes

Dankzij de haakjes kunnen de Masterpiece tegels aan een muur worden opgehangen, net als een foto. Dit betekent dat ze op plekken als badkamers, keukens, kasten en boven openhaarden kunnen worden gebruikt, in tegenstelling tot normale ingelijste foto's, die beschadigd kunnen raken door stoom, vochtigheid, warmte of ultraviolet licht.

Gladde achterkant

De optie met een gladde achterkant betekent dat de Masterpiece tegels geschikt zijn voor installatie samen met andere tegels. Er zijn bijpassende frames in Brilliant White, Colonial White en Black voor de Masterpieces van Alma-Tadema, Rafael, Botticelli en Monet, en bijpassende Weense frames en hoeken in Gold, Antique Gold, Platinum en Black voor het Masterpiece van Klimt. De framesets bestaan uit de Weense frames en hoeken, die speciaal zijn ontworpen om aan te sluiten op de Masterpiece tegels en die de verschillen in diktes tussen deze en de veldtegels van 5-12mm overbruggen.

Masterpiece tegels en -frames zetten

We raden ten zeerste aan dat de Masterpiece tegels en -frames van Original Style worden geïnstalleerd door een ervaren tegelzetter. Masterpiece tegels moeten altijd met de grootste voorzichtigheid worden gehanteerd. Masterpiece tegels kunnen per stuk tot aan 7kg wegen en persoonlijk letsel veroorzaken als ze vallen. Masterpiece tegels hebben een absorptiecapaciteit voor water van minder dan 3 procent. Het is belangrijk dat de aanwijzingen van de lijm- en voegmiddelproducent te allen tijde worden opgevolgd.

N.b.: Raadpleeg de installatieaanwijzingen op www.originalstyle.com/fixing.html voorafgaand aan het zetten van de Masterpiece tegels.

Reinigen

Original Style Masterpiece-tegels moeten, net als normale geglaazuurde muurtegels, worden afgespoeld met schoon water en worden afgedroogd met een zachte, droge doek.

Raadpleeg het onderdeel Masterpiece Tiles and Frames van de Original Style Fixing Guide (www.originalstyle.com/fixing.html) voor volledige tegelinstructies.

Volg in de Verenigde Staten de aanbevelingen van een betrouwbare lijmfabrikant en werk altijd conform de specificaties van de American National Standards Institute (ANSI) zoals beschreven in het Handbook for Ceramic Tile Installation dat is gepubliceerd door de Tile Council of America. Nuttige links: www.ctoa.org, www.tileusa.com.

FOTOMATERIAAL

Door kleine verschillen in de studiobelichting en de drukinkten, kunnen de in deze brochure getoonde kleuren licht afwijken van de werkelijke kleuren van de tegels. Vraag uw Original Style-detailhandelaar altijd om u een monster te tonen.

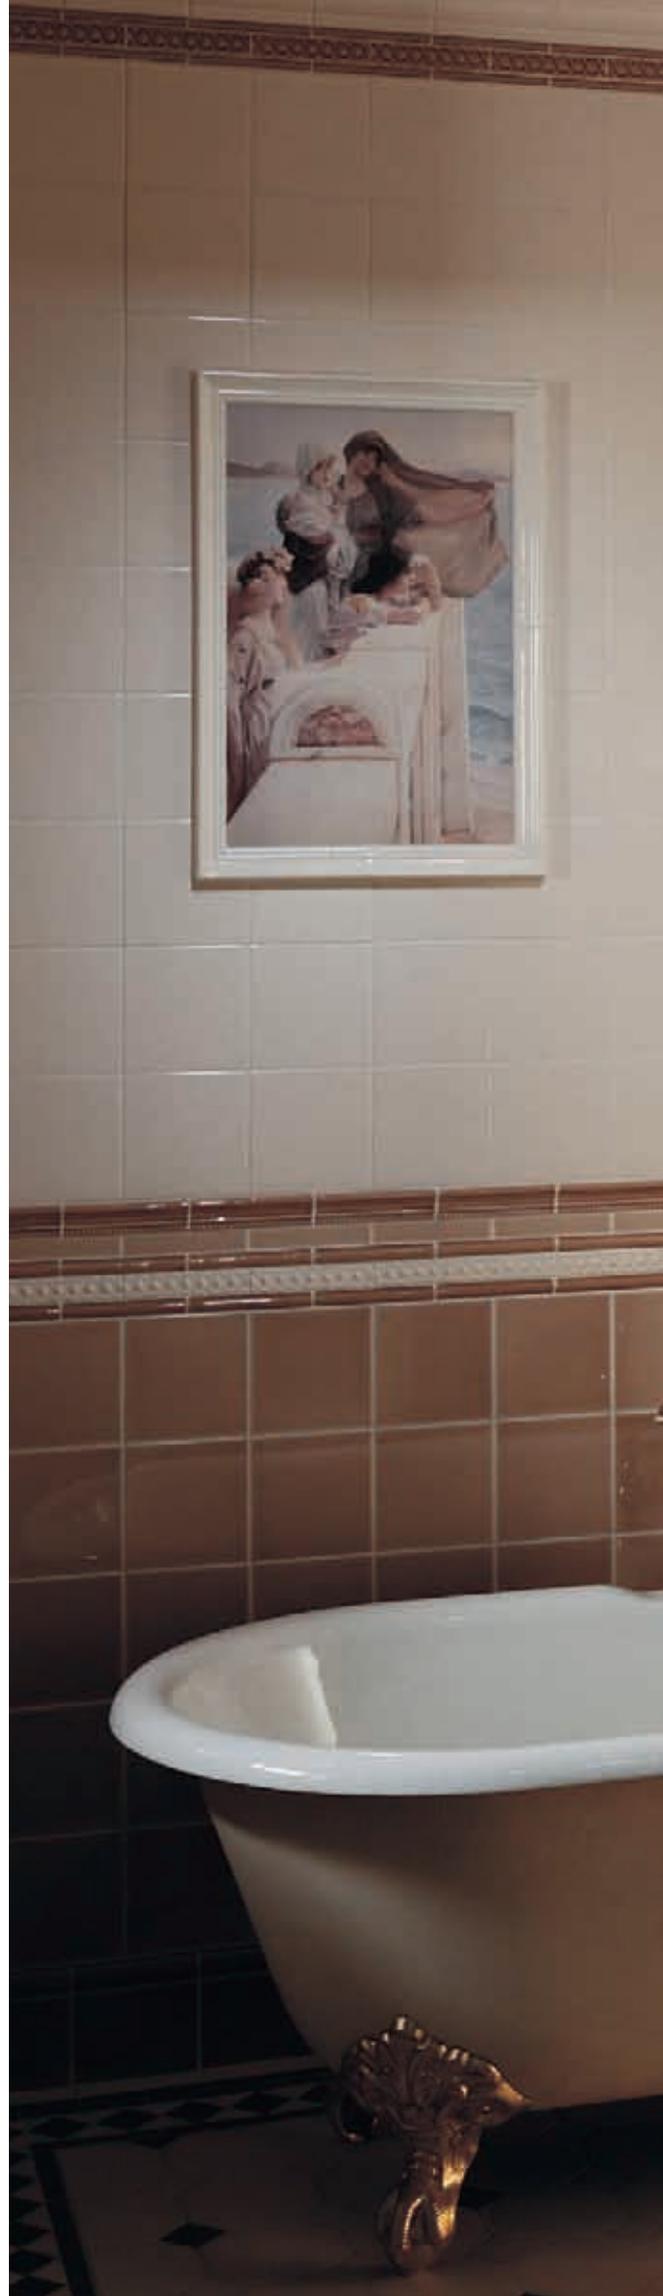

BEPERKING VAN AANSPRAKELIJKHEID

Original Style is niet aansprakelijk voor de onjuiste installatie van zijn producten. In het geval van enige claim in verband met de tegels zelf is de wettelijke aansprakelijkheid van Original Style voorzover maximaal is toegestaan op grond van toepasselijk recht beperkt tot het vervangen van het product of het terugbetalen van de kosten van het product. Original Style is in geen geval aansprakelijk voor gevolgschade of indirecte schade. Klachten moeten binnen zeven werkdagen na ontvangst van de tegels worden gemeld. De tegels moeten voor installatie worden gecontroleerd en claims worden niet meer in overweging genomen nadat de tegels zijn geïnstalleerd.

Door installatie accepteert u de kwaliteit, kleur, maten, textuur en kleurnuances van de tegels. Original Style garandeert dat de tegels voldoen aan hun beschrijving en geschikt zijn voor hun doel. Original Style biedt geen andere uitdrukkelijke of impliciete garanties voor de geschiktheid of gepastheid van de producten voor specifieke installaties. We verlenen geen garanties, uitdrukkelijk noch impliciet, voor slijtagebestendigheid of onderhoudsprocedures.

We wijzen u erop dat bepaalde zuurhoudende schoonmaakmiddelen kunnen reageren met sommige tegels en het karakter ervan kunnen wijzigen.
